FXAP1414	14'' x 14''	350 x 350	355 x 355	412 x 412

Installation Instructions:

Step 1

Prepare the necessary tools:
knife, silicone sealant or construction adhesive and the plastic access panel.

Step 2

Use the included paper template to mark the cut-out or place the access panel against the wall and mark around the inner frame of the panel.

Step 3

Carefully cut the aperture on the wall.

Step 4

Remove the panel from the door frame and apply the adhesive all around the backside of the frame.
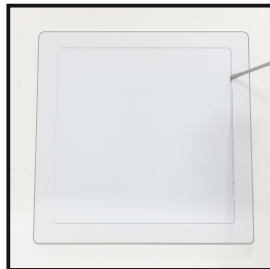

Step 5

Insert the door frame into the opening, make sure it is level and press firmly until the adhesive is set. Remove any excess adhesive and leave to set.

Step 6

Fit the door back in to the frame. To open the door use a straight screwdriver in the existing slot on the edge of the door and ease open.
